

# Lithium Ion Power

ADVANCED TECHNOLOGY

## BATTERIES

- Lighter (up to 66% less than lead acid)
- Increased temperature resistance
- 5 Years manufacturer warranty
- Battery Management System
- Safe and reliable chemistry
- Low rate of self-discharge
- Require no maintenance
- Deep cycling capability
- Fast charge capability
- Minimal corrosion

Lithium Ion Battery

Lithium Ion Charger

## CHARGERS

Chargers we supply are specifically programmed for Lithium Ion technology. They provide safe, efficient charging to obtain the best performance possible.

## MODIFICATIONS

We have engineered Electronics required to modify vehicles correctly for use with Lithium Ion Technology.

**Upgrade Package : 2x 75 Ah 12 V Batteries + Charger + Electronics Modifications (available for many models)**

**Up to 50 miles/charge - 5 Year Manufacturer Warranty**

**Enhanced range and reliability for frequent/heavy users**
